

# CountDown

EuroScope Plug-in By Craig Phillips

## Files contained in zip

CountDown.dll

remainder.wav

## Installation

1. Download and open the ZIP file.
2. Put **CountDown.dll** in the main EuroScope directory.
3. Put **remainder.wav** in the Sounds folder in the main EuroScope directory.
4. Start up EuroScope, click 'Other Set', then 'Plug-ins...'
5. Click 'Load' and navigate to the main EuroScope directory and select CountDown.dll and click 'Open'.
6. The Plug-in should now appear in the list, but now you have to give it permission to draw on the 'Standard ES radar screen'. Click the plug-in in the list box and then click in the 'Forbidden to draw on types' 'Standard ES radar screen' and click '<<' to move it to 'Allowed to draw on types'.
7. Click 'Close'

## Usage

**.fcd show** – To show the countdown plug-in.

**.fcd hide** – To hide the countdown tool, or the 'X' button on the plug-in.

Press '1', '2', or '3' to start 1, 2 or 3 minute timers respectively and the remaining time is displayed.

To stop the timer before it reaches 0:00, click the remaining time on the plug-in.

To move the plug-in simply click and drag the remaining time box.
